## ABOUT ARTIST

Stacy Lovejoy is mixing the genres incessantly. Her practice includes a wide variety of disciplines ranging from paintings and sculptures to installations and performance art. She expresses herself using different media such as clay, resin, plastic, wood, metal, fabric, as well as things found in thrift stores and low-cost markets.

## ARTIST STATEMENT

Through my art, I globalize the healing with joy. My main goal is to awaken people, tickle their mind, and say: "Hey guys! This world is too simple to be taken so seriously!" I wish for people to realize that being an adult is the same as being a child, but with far more benefits. As an adult, you belong to yourself and the most important thing is that you have a choice! It means you can have as much candy as you wish, even in place of dinner! And you can wear your clothes inside out, crawl the whole day instead of walking, and climb a tree with a candelabra on your head. The more you play and do such spontaneous and silly things, the more you feel alive.
